

STANDARD AGREEMENT OF USE

1. Pre2Doc is an **innovative conception** of healthcare professionals working in the field to make preventive healthcare available to all and thereby limit risk of developing **chronic/non communicable (NCD)** disease by suggesting lifestyle alternatives which are grounded in scientific fact and medical analysis.
2. Pre2Doc enlists the assistance provided by World Health Organisation approved and certified questionnaires in order to gather the medical history of intended users and thereby generate the aggregate data for health analysis by the Pre2Doc team.
3. Pre2Doc is a preventive healthcare ‘start-up’ which provides its services via a two part factor, one part determined by individual intended user medical history that would be unique to the user combined with the Pre2Doc factor of expert aggregation and analysis of data, thereby providing the unique preventive healthcare map for intended individual users.
4. Pre2Doc being a preventive healthcare service providing specific health advice and education based on customized responses to individual intended user’s health scores, does not provide any diagnostic or post diagnostic medical analysis or report.
5. Pre2Doc makes clear that its services are not equitable to **curative** medical treatment of pre-existing conditions **via this platform**; however Pre2Doc **panel doctors** are expertly suited to the task of all round medical management, health awareness and education based on customised health analysis. Pre2Doc is not liable for incorrect information provided by intended users **while answering the questionnaire**.
6. In consideration for participation in the activity of preventive healthcare analysis and education Pre2Doc intended users agree to abide by the condition of discharge or release of Pre2Doc of all medical liability in connection with the said activity as Pre2Doc does not engage in diagnostic or post diagnostic treatment.
